Foreword

I am delighted to introduce the seventh edition of the *Statistical Profile of the Victorian Prison System*, which has again been prepared by Corrections Victoria in the Victorian Department of Justice.

This statistical publication profiles the major characteristics of the prisoner population over the last five years, as well as providing profiles of the key characteristics of the prisoner population at each of the State's thirteen prisons as at 30 June 2006.

This document is a valuable factual reference tool for those with an interest in prison population trends in Victoria. The previous six publications in this series have all been well received, and I am confident that this seventh edition will continue to contribute to informed debate about our prison system.

I welcome any comments that readers might have about both the content and the presentation of this publication.

Preface

This publication, the seventh in a regular series, contains data for the five year period from 30 June 2002 to 2006 derived from data collected for the National Prisoner Census by Corrections Victoria. Part of this data is produced and published annually by the Australian Bureau of Statistics in its publication *Prisoners in Australia* (Catalogue No. 4517.0), the 2006 edition of which was released on 14 December 2006.

Four new tables on the most serious offences of sentenced prisoner receptions have been included for the first time in this edition - sentenced prisoner receptions, by most serious offences, for male, female and all prisoners, and sentenced Indigenous prisoner receptions by most serious offence.

Data relating to prisoner receptions is derived from prisoner reception records from the Prisoner Information Management System.

The tables in this publication profile the demographic and sentence characteristics of the prisoner population, which set the context for the delivery of prison services.

The following types of data are presented:

Census data - relates to all prisoners in custody on 30 June ("census" or "annual stock" data). "Stock" data provides a snapshot of the prison population at a particular point in time. Prisoners who are serving long sentences tend to be relatively over-represented in this data.

Flow data - or "throughput" data is equally important in accurately describing the prisoner population:

- Reception data - flow data that provides a picture of the characteristics of all of the prisoners who have been received into custody over a specified period of time, in this case a financial year.
- Discharge data - flow data that relates to all of the prisoners who have been discharged from custody over a specified period of time, also in this case a financial year.

System Configuration and Prisoner Population Trends

System Configuration and Prisoner Population Trends

At 30 June 2006 the Victorian prison system comprised thirteen prisons. Each prison performs significantly different functions, provides services to prisoners with differing treatment and supervision needs, and is unique in terms of its size, location, security level and physical infrastructure, including accommodation.

Eleven prisons are operated by the public provider, Corrections Victoria and two are privately managed prisons.

Prison profiles for each of the thirteen prisons are provided on pages 71- 83 of this report.

¹ Maximum and medium security prisons are also known as "Secure" prisons, meaning a prison where the regime for managing prisoners requires them to be confined by a secure perimeter physical barrier. Minimum security, or "Open" prisons, operate a regime for managing prisoners that does not require them to be confined by a secure perimeter physical barrier irrespective of whether a physical barrier exists.

It is higher than the number of individual persons received into prison custody because an individual prisoner may be received on multiple occasions during the year.

Key Findings

Key Findings

This report profiles the major demographic and sentencing characteristics of the prisoner population. Tables present stock and flow data relating to male, female, and Indigenous prisoners on variables including age, legal status, prior imprisonment, security rating, most serious offence or charge, expected time to serve, country of birth, marital status, education and prior employment.

Imprisonment Rates

In 2006 Victoria's overall crime rate was the lowest of all State and Territory jurisdictions in Australia - 20% below the national average for the twelfth consecutive year. Reflecting this outcome, Victoria's imprisonment rates are also consistently the lowest in Australia - 39% below the national average.

Prisoner Numbers

Although Victoria's imprisonment rates are the lowest nationally, there has still been a substantial increase in the Victorian prison population over the last five years.

Between 30 June 2002 and 30 June 2006 the prisoner population increased significantly from 3,540 prisoners to 3,905 prisoners, an increase of 10.3%, and there was an increase of 5.8% in the last year of the period under review.

Between 30 June 2002 and 30 June 2006, the female prisoner population decreased slightly from 254 prisoners to 245 prisoners, a decrease of 3.5%, compared with a 11.4% increase in the male prisoner population in the same period.

Prison Utilisation

Prisoner population increases during the period in review have meant that the operational utilisation (or 'occupancy') rate continued to be relatively high during the period 2001-02 to 2005-06.

The prison utilisation rate decreased from 95.4% of operational capacity at 30 June 2002 to 89.0% at 30 June 2004 and subsequently increased slightly to 91.2% at 30 June 2006.

Prisoner Characteristics

While the total number of prisoners increased during the period covered by this publication, leading to prison crowding, the composition of the prisoner population did not change significantly. Similarly, while the number of prisoners across each of the variables covered by the report increased, in many cases quite markedly, the proportions of prisoners did not show the same level of change.

Figure 4 Total prisoner population at 30 June 1996 to 30 June 2006

Key Findings

Male Prisoners

Male prisoners comprise the overwhelming majority of the Victorian prison population, accounting for approximately 90% of all prisoner receptions and about 93% of the prison population as at 30 June each year. The number of male prisoners as at 30 June 2006 was 3,660, compared with 245 female prisoners.

Prisoner Population

The number of male prisoners increased from 3,286 to 3,666 between 30 June 2002 and 30 June 2006, an increase of 11.4%.

Age

As at 30 June 2006, 14.7% of male prisoners were under 25 years of age. The proportion of male prisoner receptions in this age group has declined significantly from 30.2% in 2001-02 to 22.1% in 2005-06.

Imprisonment Rate

The imprisonment rate for males increased to 191.4 per 100,000 male adults at 30 June 2006 from 179.4 the previous year. The Victorian rate remained significantly lower than the overall Australian rate for males of 307.9 per 100,000 adult males.

Known Prior Adult Imprisonment

On 30 June 2006, around 54% of male prisoners had previously been in prison under sentence.

Legal Status

The ratio of sentenced to remand prisoners in custody on 30 June each year has remained steady at a ratio of about 83:17.

Security Classification

On average, about 8% of sentenced male prisoners as at 30 June each year had a maximum security classification. Around 54% were classified as medium, and 20% as minimum. All unsentenced prisoners are automatically assigned a maximum security rating.

Most Serious Offence/Charge

Data relating to the most serious offence for which prisoners were charged or sentenced as at 30 June 2006 indicates that men are most likely to be in prison for offences against the person (37.2%) or property offences (24.8%). These two offence categories have represented around 60% of male prisoners at 30 June each year since 2002.

Consistent with previous years, property offenders comprised the most significant category of receptions into prison in 2005-06 (31.5%).

The largest proportional increases in male receptions since 2001-02 have occurred for motor vehicle and traffic offences, up from 237 receptions in 2001-02 to 379 receptions in 2005-06, and in offences against the person which increased from 688 receptions to 974 receptions in the same period.

However, receptions for property offences have declined from a high of 1,797 receptions in 2001-02 to 1,362 receptions in 2005-06.

Expected Time to Serve

Of those undergoing custodial sentences, 32.3% as at 30 June 2006 were serving a sentence of under 12 months, down from 35.6% as at 30 June 2002.

Of those men who received sentences in 2005-06, 45% received sentences of less than 6 months, and a further 33% received sentences of 6 to less than 12 months.

Country of Birth

Around 79% of men received into prison during the period reported that they were born in Australia. The proportion of male receptions born in countries where the primary language is other than English has averaged around 16% during the same period.

The most significant increase has been in the number of men born in Africa, which increased from 18 (0.4% of total receptions) to 44 (1.0% of total receptions). Male prisoners born in Vietnam represented 4.5% of the male prisoner population (164 prisoners) on 30 June 2006.

Level of Education

Education levels attained by male prisoners appear to be relatively low, with about 10% of those in prison at 30 June reporting that they had completed secondary, trade or tertiary education prior to reception. A further 85% of male prisoners reported having undertaken some secondary-level schooling.

Employment Status

Approximately 60% of male prisoners as at 30 June each year were unemployed or not part of the paid labour force when in the community.

Marital Status

The proportion of male prisoners as at 30 June each year who report that they are single or have never been married has decreased slightly from 59.7% as at 30 June 2002 to 58.3% at 30 June 2006. Just under 30% were married or in de-facto relationships at the time they were received into prison and approximately 11% were separated or divorced.

Indigenous Male Prisoners

Approximately 5% of men received into prison identified themselves as Aboriginal or Torres Strait Islander on reception during each of the five years 2001-02 to 2005-06.

The proportion of Aboriginal and Torres Strait Islander men in prison at 30 June each year has increased each year from 4.4% at 30 June 2002 to 5.5% at 30 June 2006 and the number has increased significantly from 145 (30 June 2002) to 200 (30 June 2006).

At 30 June 2006 the Victorian Indigenous imprisonment rate per 100,000 Indigenous adults was 2,269 for males, the highest level for the period under review, but significantly lower than the Australian Indigenous imprisonment rate for males of 4,006.4 at 30 June 2006.

Key Findings

Female Prisoners

Women prisoners comprise a relatively small proportion of the Victorian prison population, accounting for approximately 10% of all prisoner receptions and about 7% of the prison population as at 30 June each year. The number of women prisoners as at 30 June 2006 was 245, compared to 3,660 male prisoners.³

Prisoner Population

The number of women prisoners decreased from 254 to 245 between 30 June 2002 and 30 June 2006, a decrease of 4%.

Age

As at 30 June 2006, only 10.6% of women prisoners were under 25 years of age. The proportion of prisoner receptions in this age group has declined from 33% to 19% during the years since 2001-02.

Imprisonment Rate

The imprisonment rate for women decreased to 12.2 per 100,000 female adults at 30 June 2006 from 12.8 the previous year. The Victorian rate remained significantly lower than the overall Australian female rate of 22.8 per 100,000 adult females.

Known Prior Adult Imprisonment

On 30 June 2006, about 45% of women prisoners previously had been in prison under sentence.

Legal Status

The ratio of sentenced to remand prisoners in custody on 30 June each year has remained relatively steady at a ratio of about 79:21.

Security Classification

On average, about 11% of sentenced female prisoners as at 30 June each year had a maximum security classification. Around 45% were classified as medium, and 25% as minimum. All unsentenced prisoners are assigned a maximum security rating.

Most Serious Offence/Charge

Data relating to the most serious offence for which prisoners were charged or sentenced as at 30 June 2006 indicates that women are most likely to be in prison for property related offences (33.9%), followed by offences against the person (26.9%) and drug offences (14.3%).

The majority of receptions in 2005-06 were also for property offences (40%).

The most significant change has been in the number of women whose most serious offence or charge is murder/ homicide and robbery. The murder/other homicide category increased from 37 women (14.5%) at 30 June 2002 to 44 women (17.9%) at 30 June 2006. The number of women with a most serious offence/charge of robbery decreased from 44 at 30 June 2002 to 23 on 30 June 2006.

Receptions for assault offences increased to 8.1%, while receptions for robbery offences decreased from 12.9% in 2001-02 to 7.3% during 2005-06.

Expected Time to Serve

Of those undergoing custodial sentences as at 30 June 2006, 42.8% were serving a sentence of under 12 months, well down from 52% at 30 June 2002.

Of those women who received sentences in 2005-06, 50.4% received sentences of less than 6 months, and a further 28.3% received sentences of 6 months to less than 12 months.

Country of Birth

Around 83% of women received into prison in 2005-06 reported that they were born in Australia, down from 86% in 2001-02. The proportion of women born in countries where the primary language is other than English increased from 7.3% to 12.6% during the same period.

The most marked increase has been in the number of women born in Vietnam, which increased from 2.5% to 5.6% of receptions. Women prisoners born in Vietnam represented 6.1% of the women prisoner population (15 prisoners) on 30 June 2006.

Level of Education

Education levels attained by women prisoners appear to be significantly higher than that reported by male prisoners, with about 20% of those in prison at 30 June 2006 reporting that they had completed secondary, tertiary or other post-secondary education prior to reception. A further 70% reported having undertaken some secondary-level schooling.

Employment Status

About 80% of women prisoners as at 30 June each year were unemployed or not part of the paid labour force when in the community.

Marital Status

The proportion of women prisoners as at 30 June each year who report that they are single or have never been married has declined slightly from 50% in 2002 to 48% at 30 June 2006. 37% were married or in de-facto relationships at the time they were received into prison and 15% were separated or divorced.

Indigenous Women Prisoners

The number of women identifying themselves as Aboriginal or Torres Strait Islander on reception peaked at 50 in 2004-05 but declined to 44 in 2005-06, a similar level to previous years.

The number of Aboriginal or Torres Strait Islander women in prison was 15 at both 30 June 2002 and 30 June 2006.

At 30 June 2006 the Victorian Indigenous female imprisonment rate per 100,000 Indigenous adults was 166. The Indigenous imprisonment rate has fluctuated significantly over the period, but has consistently been well below the Australian Indigenous imprisonment rate for women - 365.8 at 30 June 2006.

³ Given the relatively small size of the women prisoner population, caution should be exercised in concluding that a percentage change in the composition of the population is significant or indicative of a trend.

68 Melbourne Assessment Prison

Prison security level Secure (Maximum security)

Prison operational capacity 275 beds

Formerly the Melbourne Remand Centre, the prison was opened in 1989. Accommodation is primarily in single cells, with a small number of shared cells. An additional 30 temporary beds (bunks) have also been installed.

Function The prison commenced operations as the Melbourne Assessment Prison (MAP) in January 1997, and is the reception prison for all male prisoners in Victoria. The volume of prisoners received contributes to high turnover, and the range of prisoner needs requires flexible management.

The prison is divided into a number of different units, many of which have different roles or functions, and accommodate different groups of prisoners (eg mainstream, protection, remand, workforce). A 15 bed statewide secondary psychiatric facility (the Acute Assessment Unit) is also located at MAP.

69 Metropolitan Remand Centre

Prison security level Secure (Maximum security)

Prison operational capacity 600 beds

Opened on 18 April 2006. Accommodation consists almost entirely of single cells, which have been designed to meet stringent cell and fire safety standards.

Function The Metropolitan Remand Centre (MRC) is a maximum security prison for unsentenced prisoners who have been remanded into custody by the courts. An important focus for the prison is to keep sentenced and unsentenced prisoners separate as far as practicable, consistent with United Nations standards for the treatment of prisoners who have not yet been found guilty by a court. The MRC includes variable-sized accommodation to meet the specific needs of particular groups, such as young adult prisoners, low risk prisoners, vulnerable prisoners, prisoners with a disability, culturally and linguistically diverse prisoners, and prisoners with substance abuse issues.

Definitions

Explanatory Notes

Appendix

Definitions and Explanatory Notes

Term	Definition
Age	The prisoner's age in years as at 30 June (for census data), or the age in years at the time of reception into prison custody (for reception data).
Average Prisoner Population	The average prisoner population is calculated by summing the prison population counts on each day of the year and dividing by the number of days in the year to determine the average prisoner population for that year (see also Prisoner Population).
Country of Birth	The country of birth of the prisoner is determined from prisoner interviews.
Education Level	The highest level of education attained by the prisoner at the time of reception into prison custody. Education level is determined from prisoner interviews. Education and/or training subsequently undertaken by a prisoner while in custody is not reflected.
Employment Status	Employment status of prisoner at the time of reception into prison custody. Employment status is determined from prisoner interviews.
Expected Time to Serve	The period of imprisonment which a convicted prisoner is expected to serve and in most cases refers to the time elapsed between the date of reception for this episode and the earliest date of release. This calculation is based on the minimum sentence, if one has been imposed. If no minimum sentence has been imposed, the earliest date of release is based on the fixed term sentence.
Imprisonment Rates	Imprisonment rates are expressed per 100,000 adult population or, for tables relating to Indigenous prisoners, per 100,000 adult Indigenous population. Adult population figures are for persons aged 17 years and over. Imprisonment rates enable comparisons across jurisdictions within Australia.
Indigenous Prisoners	Prisoners who are identified as Aboriginal or Torres Strait Islander. All prisoners are asked whether they identify as Aboriginal or Torres Strait Islander on reception into custody.
Intellectually Disabled Prisoners	Prisoners who are registered with the Department of Human Services as having a diagnosed intellectual disability.
Known Prior Adult Imprisonment	Data for 2002 includes episodes on remand and fine default as well as previous episodes under sentence. It is therefore possible that a 'prior episode' may have been a period of remand in relation to the same offence. Data for 2003 onwards only relates only to prior sentenced episodes (including fine default).
Legal Status	Determined by the warrants or court orders which provide the legal basis for the detention in custody of the prisoner. Where a prisoner is undergoing a sentence of imprisonment but also has outstanding legal matters, the sentenced status takes precedence.
Marital Status	The actual (not necessarily legal) marital status of a prisoner at the time of reception into prison custody.
Most Serious Offence/Charge (MSO or MSC)	For sentenced prisoners, this is the offence for which the prisoner has received the longest sentence in the "current episode" for a single count of the offence, regardless of the possible result of any appeals, and regardless of whether the sentence for that offence has actually expired at the census date. Where sentences are equal, or the longest sentence cannot be determined, the MSO is the offence with the lowest Australian National Classification of Offences (ANCO) code (see Appendix 1 for ANCO categories). For unsentenced prisoners, whether convicted or not, the MSC is the charge which carries the longest statutory maximum penalty. Where penalties are equal, the MSC is the charge with the lowest ANCO code.
Open Custody	A custodial regime for managing prisoners that does not require them to be confined by a secure perimeter physical barrier, irrespective of whether a physical barrier exists.

Definitions and Explanatory Notes

Term	Definition
Operational Capacity	Operational capacity is the total number of places available in which to house prisoners. The figure excludes loss of privilege cells, management cells used only on a short-term basis, observation cells and hospital beds. It includes any additional beds that have been placed in cells over and above their designated capacity (e.g. single cells which have been double-bunked) and any other temporary accommodation.
Prison Receptions	Persons who enter corrective services custody from the community, having been remanded in custody on charges pending court hearings or having received a sentence of imprisonment as an outcome of a court proceeding. It excludes prisoners received on transfer from other Victorian prisons or returned to prison custody after further court hearings. A person remanded into custody or sentenced to prison more than once will be counted on each occasion.
Prison Utilisation Rate	The prison utilisation rate at 30 June is the prisoner population at 30 June expressed as a percentage of the operational capacity at that same date.
Prisoner Population	The number of prisoners physically present in gazetted prisons. It excludes prisoners held in police cells, retained overnight at court, otherwise temporarily absent from the prison or held by the Department of Human Services, as well as adult prisoners held in juvenile detention centres (see also Average Prisoner Population).
Secure Custody	A custodial regime for managing prisoners that requires them to be confined by a secure physical barrier.
Security Classification	Security classification is an attribute of the prisoner, not the prison. Therefore, it is possible to have prisoners classified at a different level to that of the institution. The classification categories are maximum, medium and minimum. In Victoria, all prisoners are classified as maximum security at reception into custody. The formal classification of prisoners occurs after sentencing and the prisoner is reclassified as appropriate.
Security Level	Security level is an attribute of the prison, not the prisoner. The security level of a prison is described as either: Open or Secure, or Maximum, Medium or Minimum. The Secure category comprises maximum and medium prisons and the Open category comprises the minimum prisons.
Sentenced Prisoners	Those persons who have received a term of imprisonment from a court. This includes offenders who have been given an indeterminate sentence or custodial order, or those who have received a Life sentence. Also included are prisoners who are serving a sentence for non-payment of a fine ('fine default'), prisoners who are sentenced but awaiting the outcome of an appeal, sentenced prisoners who also have active remand warrants against them ('dual status'), and prisoners who are unfit to plead or not guilty on the grounds of insanity.
Sentenced Receptions	Persons who enter corrective services custody from the community, having received a sentence of imprisonment as an outcome of a court proceeding. It also includes persons sentenced to imprisonment while held in prison on remand (i.e. change status from a remand to a sentenced prisoner). Sentenced prisoners in custody who receive a further sentence of imprisonment are not counted as sentenced receptions.
Unsentenced Prisoners	Those persons who have been placed in custody while awaiting the outcome of their court hearing. They may be unconvicted (remanded), or convicted but awaiting sentenced (remanded for sentencing). Persons who are held in an adult prison awaiting deportation are also included in this category.
