| Executive Summary | (ii) |
| | |
| 1. Introduction | 1 |
| 1.1 Introduction | 1 |
| 1.2 Terms of Reference and Critical Tasks | 2 |
| 1.3 Regional Caps in Victoria | 3 |
| | |
| 2. Methodological Considerations | 17 |
| 2.1 Approaches to Programme Evaluation | 17 |
| 2.2 Approach Adopted | 19 |
| 2.3 Annual Data Review | 21 |
| 2.4 Selection of Matched or Control Regions | 22 |
| 2.5 Identification of Matching Regions | 29 |
| | |
| 3. Previous Policies and Results to Minimise Harm from Gambling | 33 |
| 3.1 Bans on Smoking in Gaming Areas | 33 |
| 3.2 Access to Finance – Credit Card and ATM Usage | 42 |
| 3.3 Advertising and product warnings | 44 |
| 3.4 Reconfiguring Gaming Machines | 48 |
| 3.5 Review of Voluntary Measures and Mandatory Regulations | 50 |
| 3.6 Conclusion | 51 |
| | |
| 4. Caps on Electronic Gaming Machines | 52 |
| 4.1 The Australian Gambling Environment | 52 |
| 4.2 Regional Issues | 55 |
| 4.3 Responses to binding caps | 60 |
| 4.4 Accessibility and regional caps | 63 |
| 4.5 Accessibility and gambling behaviour | 64 |
| 4.6 Responsiveness of Gamblers | 67 |
| 4.7 Conclusion | 71 |
| | |
| 5. Assessment of Gaming Statistics: Phase One | 72 |
| 5.1 Introduction | 73 |
| 5.2 Explanation of Data Requirements | 73 |
| 5.3 Trends and Cyclical Patterns | 76 |
| 5.4 Assessment of the Cap and Control Regions | 83 |
| 5.5 Assessment of the Cap and the Leakage Points | 99 |
| 5.6 Assessment of the Impact on Problem Gamblers | 106 |
| 5.7 Industry Assessment of the Impact of the Caps | 108 |
| 5.8 Impact of the Caps: Assessment by Venues | 109 |
| 5.9 Concluding Remarks | 112 |
| | |
| 6. Assessment of Gaming Statistics: Phase Two | 113 |
| 6.1 Review of Venue Level Gaming Data | 113 |
| 6.2 Methodology: Testing the Impact of the Caps | 118 |
| 6.3 Statistical Analysis | 121 |
| 6.4 Results: the effects of regional caps on gaming expenditure at venues in the capped regions | 123 |
| 6.5 Confounding factors: size of venues and population growth | 133 |
| 6.6 Conclusions | 135 |
| | |
| References | 137 |
| Appendix 1 Impact of Caps on EGMs: Terms of Reference & Reporting Time Lines | 143 |
| Appendix 2 The Nature of Problem Gambling: Particularly with regard to EGMs | 145 |
| Appendix 3 Gaming Machine Numbers by Venue | 181 |
| Appendix 4 Machine, Venue Numbers and Regional Profiles | 195 |
| Appendix 5 Contact with Tabcorp and Tattersall's | 223 |
| Appendix 6 Survey of Venues in Cap, Control and Leakage Regions | 230 |
| Appendix 7 Is the capping of regions independent of trends in gaming machine expenditure? | 240 |

This report was prepared by the following researchers:

Michael O'Neil, Director

Steve Whetton, Senior Research Economist

Ben Dolman, Research Economist

Marianne Dolman, Research Economist

Voula Giannopoulos, Research Associate

Disclaimer: This study, while embodying the best efforts of the investigators is but an expression of the issues considered most relevant, and neither the Centre, the investigators, nor the Universities can be held responsible for any consequences that ensue from the use of the information in this report. Neither the Centre, the investigators, nor the Universities make any warranty or guarantee regarding the contents of the report, and any warranty or guarantee is disavowed except to the extent that statute makes it unavoidable.

Acknowledgements

The South Australian Centre for Economic Studies has conducted this study over three years and in that time we have received considerable support from members of the Gambling Research Panel,¹ the Secretariat to the GRP, the Office of Gambling Regulation (OGR) and the many hotels and clubs in Victoria that completed surveys and discussed their experience of the caps policy. We would also like to acknowledge the assistance of Tabcorp (Vic) and the AHA (Victoria) over the life of the project. Department of Human Services (DHS) staff kindly assisted with data and responded to our many requests.

Two special mentions are required. Ms Kerrie Hereward (OGR) who provided the data from OGR files, answered our many queries and responded to our many requests to check and re-check data. She was always willing to assist the project and her professionalism reflects well on the Office of Gambling Regulation.

The researchers also gratefully acknowledge the support of the GRP — Associate Professor Linda Hancock, Mr Peter Laver and Mr David Weston — who were untiring in their support, helpful advice and in ensuring the research team had access to the necessary data to complete the project.

A number of researchers provided helpful comments over the life of the project and we acknowledge their input.

The Victorian Government has an enviable record of leadership in gambling policy and independent research to assess the success (or otherwise) of various initiatives. The researchers note that the Minister for Gaming, the Hon. John Pandazopoulos on advice from the GRP, was instrumental in enabling the research team to obtain access to the data necessary to complete the study.

Finally, as the senior author I express my thanks to the research team who maintained a commitment to this project over the three year period.

¹ Correspondence (undated) received by the SA Centre for Economic Studies (on 1 November 2004) from Mr Ross Kennedy, Executive Director - Gaming and Racing, Department of Justice advising that the Victorian Government has established a new body, namely the Responsible Gambling Ministerial Advisory Council which would replace the Problem Gambling Roundtable and in addition, the Gambling Research Panel would be discontinued.
